

# Anti- Claudin 6 (Phospho-Tyr219) Polyclonal Antibody

Catalog No.	Size
A100333-01	50 µl
A100333-02	100 µl

Specificity	Anti- Claudin 6 (Phospho-Tyr219) (human mouse)
Source	Rabbit Polyclonal
Application	WB ELISA
Form	Liquid, 1 mg/ml

## Product

**Swiss-Prot No.:** P56747

**Other Names:** claudin 6; claudin-6; CLD6; Skullin 2

## Specificity and Sensitivity

Claudin 6 (Phospho-Tyr219) antibody detects endogenous levels of Claudin 6 only when phosphorylated at tyrosine 219.

## Source and Purification

The antiserum was produced against synthesized phosphopeptide derived from human Claudin 6 around the phosphorylation site of tyrosine 219 (T-K-N-Y<sup>P</sup>-V).

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.

## Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows:

WB: 1:500~1:3000      ELISA: 1:1000

## Storage Buffer

Rabbit IgG in phosphate buffered saline (without Mg<sup>2+</sup> and Ca<sup>2+</sup>), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

## Storage Instructions

Stable for 1 year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing. Aliquot will be stable at 4°C for 3 months.

## Images
