

Anti- Phospho-Nibrin(Ser278) Polyclonal Antibody

<u>Catalog No.</u>	<u>Size</u>
A100484-01	50 µl
A100484-02	100 µl

Specificity	Anti- Phospho-Nibrin(Ser278) (human)
Source	Rabbit Polyclonal
Application	WB IF
Form	Liquid, 1 mg/ml

Product

Swiss-Prot No.: O60934

Other Names: Cell cycle regulatory protein P95, NBN, NBS, NIBRIN, NIJMEGEN BREAKAGE syndrome protein 1, p95-NBS1

Specificity and Sensitivity

Phospho-Nibrin(Ser278) Antibody detects endogenous levels of Nibrin only when phosphorylated at Sersine 278.

Source and Purification

A synthesized peptide derived from human Nibrin around the phosphorylation site of Sersine 278.

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.

Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows:

WB: 1:500~1:3000 IF: 1:100-1:500

Storage Buffer

Rabbit IgG in phosphate buffered saline (without Mg²⁺ and Ca²⁺), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Storage Instructions

Stable for 1 year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing. Aliquot will be stable at 4°C for 3 months.

Images

Western blot analysis on HuvEc cell lysate using Phospho-Nibrin(Ser278) antibody, The lane on the left is treated with the antigen-specific peptide.
