

Anti- Phospho-LKB1 (Thr189) Polyclonal Antibody

Catalog No.	Size
A100628-01	50 µl
A100628-02	100 µl

Specificity	Anti- Phospho-LKB1 (Thr189) (human mouse)
Source	Rabbit Polyclonal
Application	WB
Form	Liquid, 1 mg/ml

Product

Swiss-Prot No.: Q15831

Other Names: Protein kinase, Ser/Thr (non-receptor), CAMK group, CAMKL family, LKB subfamily

Specificity and Sensitivity

Phospho-LKB1 (Thr189)Antibody detects endogenous levels of LKB1 only when phosphorylated at Threonine 189.

Source and Purification

A synthesized peptide derived from human LKB1 around the phosphorylation site of Threonine 189.

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.

Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows:

WB: 1:500~1:3000

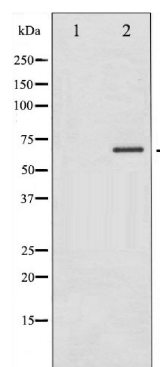

Storage Buffer

Rabbit IgG in phosphate buffered saline (without Mg^{2+} and Ca^{2+}), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Storage Instructions

Stable for 1 year at $-20^{\circ}C$ from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing. Aliquot will be stable at $4^{\circ}C$ for 3 months.

Images

Western blot analysis of LKB1 phosphorylation expression in PMA treated NIH-3T3 whole cell lysates, The lane on the left is treated with the antigen-specific peptide.
