## Specificity and Sensitivity

IKK-alpha/beta Antibody detects endogenous levels of total IKK-alpha/beta.

## Source and Purification

A synthesized peptide derived from human IKK-alpha/beta. The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.

## Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows:

WB 1:500-1:3000      IHC: 1:50~1:200
